

Adani Transmission (India) Limited

(Formerly in the name of Adani Power Maharashtra Limited)

"Adani House", Near Mithakhali Six Roads, Navrangpura, Ahmedabad-380009

PUBLIC NOTICE

Notice inviting Objections/Suggestions on Adani Transmission (India) Limited's (Formerly in the name of Adani Power Maharashtra Limited) Application for Amendment of Transmission Licence under Section 18 of the Electricity Act, 2003 (MERC Case No. 136 of 2014)

- Adani Transmission (India) Limited (Formerly in the name of Adani Power Maharashtra Limited) has made an application before Maharashtra Electricity Regulatory Commission for the amendment of Transmission Licence for Adani Transmission (India) Limited (Licence No. 2 of 2009) granted u/s 14 of the Electricity Act, 2003 and Maharashtra Electricity Regulatory Commission (Transmission Licence Conditions) Regulations, 2004, as amended in 2006.
- The details of the application are as below:
 - Name of Transmission Licensee:** Adani Transmission (India) Limited (formerly in the name of Adani Power Maharashtra Limited)
 - Address of main office in the area of Transmission:** Adani Transmission (India) Limited, Plot No. 39, 1st Floor, Shreejee House, Kotwalnagar, Ring Road, Nagpur - 440022, Maharashtra.
 - Description of alteration or amendment for which application has been made to the Commission:** The existing area of transmission Licence is as below:
 - 400 kV Double Circuit Transmission Line with quad conductor from Tiroda (Gondia) to 400 kV Warora Switching Station;
 - 2 Nos. 400 kV bays for above Tiroda-Warora Double Circuit Transmission lines at Tiroda Project switchyard;
 - 2 Nos. 400 kV bays for Tiroda-Warora Double Circuit Transmission Lines at Warora switching station;
 - The Licence after amendment would authorize the Transmission Licensee to establish and operate the following transmission lines, inclusive of related infrastructure:
 - 400 kV Double Circuit Transmission Line with quad conductor from Tiroda (Gondia) to 400 kV Warora Switching Station;
 - 2 Nos. 400 kV bays for above Tiroda-Warora Double Circuit Transmission lines at Tiroda Project switchyard;
 - 2 Nos. 400 kV bays for Tiroda-Warora Double Circuit Transmission lines at Warora switching station;
 - 2 x 80 MVAR Bus Reactors along with associated bays at Tiroda Substation.**
- Rationale for the proposed alteration or amendment:** The 400 kV Double Circuit Tiroda -Warora Transmission system planned by STU was included in the STU Transmission Plan for FY 2010-11 to FY 2014-15. Adani Power Maharashtra Limited was granted the Transmission Licence No. 2 of 2009 on July 06, 2009 (amended on March 30, 2011) for executing the said system. The Licence is assigned to Adani Transmission (India) Limited vide MERC Case No. 189 of 2014 dated 8 December, 2014. Due to high voltage prevailing in Wardha and Warora areas coupled with line capacitance at the time of commissioning of Tiroda-Warora line, it become imperative to compensate the impact by way of installation of Bus Reactor during charging as well as Operation. This has been highlighted in various Technical Reports, correspondence from WRLDG/SLDC and has also been stipulated in the Commission's Order in Case No. 51 of 2013 and Case No. 190 of 2013. Accordingly, Bus Reactors need to be considered as an integral part of ATILs (formerly in the name of APML) Licensed Transmission System.
- The application and other documents are available on website www.adanipower.com for access by any person. The application and documents may also be inspected during the working hours between 10 AM to 5 PM at the office of the Company from the following persons:
